

PRODUCT FEATURES

"Racing" Oil Filters

- Heavy duty steel body construction to resist high pressure surges and external impact.
- Low-restriction racing media designed for high oil flow.
- Spiral-shaped centertube provides protection against collapse.
- Heavy gauge steel tapping plate withstands high pressure flexing.
- Screen-over by-pass valve provides additional protection against larger contaminants - ALL NEW!

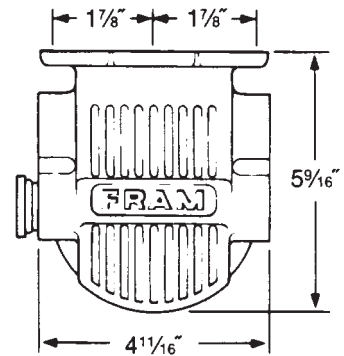

"Racing" Air Filters

- Two grades of media for both asphalt and dirt track use.
- 16" and 14" diameter sizes.

"Racing" Fuel Filters and Fuel Cartridges

- HPG1 designed for fuel flows up to and including 90 GPH and can withstand 200 PSI of pressure.
- New HPG2 (large) and HPG3 (small) in-line fuel filters.
- Replacement cartridges for all.

"Racing" Mounting Kits

- Provide more flexibility and applications for FRAM "Racing" oil filters.
