

RACING HUB & ACCESSORIES

STARLITE RACING HUB:

Wilwood's Starlite Racing Hub remains the industry standard. High strength aircraft aluminum alloy is permanent mold cast to exacting tolerances and precision machined to assure consistent strength and durability. The innovative hollow core design has been refined and race proven, and Wilwood's high output manufacturing capabilities have made it both racing tough and economical. Available in two off-sets: the standard offset to accommodate Wilwood fixed mount Superlite IIA, Narrow Dynalite and Dynalite series calipers, and the GM offset for floating calipers with the narrow outboard anvil (Wilwood's aluminum GM Series calipers). Hubs are supplied with premium quality bearing races installed and either 5/8" coarse or fine wheel studs. Total weight with studs and races is only 7.4 pounds.

DESCRIPTION	PART NO.
Standard Offset	270-1956*
GM Offset	270-1947*

*Specify Stud Type When Ordering "C" Course or "F" Fine.

Bearings and Seals:

DESCRIPTION	PART NO.
Bearing kit (inner, outer, seal)	370-0563
Grease seal	380-0429

DRIVE FLANGE:

Wilwood Engineering's Drive Flanges are made from 7075-T6 billet aluminum then CNC machined to exact tolerances for precision fit performance. Wilwood's aircraft quality billet material greatly extends spline life for greater durability. The splined center section fits Stock Car Products and Speedway Engineering style axles and are anodized with a corrosion resistant color fast coating. Available in gold or red, Wilwood's scalloped aluminum drive flange is the lightest and strongest on the market.

DESCRIPTION	PART NO.
Gold Anodized	270-2290
Red Anodized	270-2290R

ASSOCIATED BOLTS AND COMPONENTS:

DESCRIPTION	PART NO.
Wide 5 Rotor Bolt Kit (8 pack)	230-0526
Wide 5 Rotor Bolt Kit (10 pack)	230-0744
Drive Flange / Dust Cap Bolt Kit (8 pack)	230-1378
Lock Wire Drilled 5/16 - 18 x 1.00" Long Hex Head Bolts (bulk)	230-0318
Drive Flange Cap	270-2265
Drag Hub, Screw In Dust Cap	270-2158
Drag Hub, Black Screw In Dust Cap	270-3150
