

STREET TRUE® ROLLER SETS

Patent# 5,181,432.

Street True® Roller Sets use a roller chain which features full roller action on .250 diameter solid rollers with carburized pins for excellent wear resistance. The cam sprockets are made from precision machined cast iron. The crank sprockets have 3 patented keyways and are made from high quality billet steel heat-treated to RC48 minimum.

PLUS® ROLLER SETS

Patent# 5,181,432.

PLUS® Roller sets use a Diamond roller chain which features large .222 diameter rollers and excellent durability. The cam sprockets are made from high quality heat-treated cast iron. The crank sprockets have 3 patented keyways and are made from high quality carbon steel heat-treated to RC 48 minimum. Sets are matched by hand for precise chain tension.

HEAVY DUTY SETS

Patent# 5,181,432.

Heavy Duty sets use a roller chain which features .200 inch diameter rollers and good durability. The cam sprockets are made from high quality cast iron. The crank sprockets are made from high quality heat-treated carbon steel. Heavy Duty sets designated with a suffix "X" have 3 patented keyways in the crank sprocket.

MATCHED GEAR SETS

Patent# 5,181,432.

Matched Gear sets feature high quality, precision machined gears made from the best materials available. Gears are crown shaved for smooth, quiet operation and long wear. Crank gears feature 3 patented keyways for timing adjustment. Sets are matched by hand for precise backlash control.

ACCESSORIES

Timing Covers

Cloyes® Quick Button™ Die Cast Aluminum timing covers come with O-ring oil seal. Provides access to cam timing adjustment. Cam shaft end play can be adjusted with cover in place.

Cloyes® chrome timing covers are made from heavy gauge steel and polished to a high lustre.

Cam Button

Cloyes® cam buttons are fully rollerized and feature Torrington bearings.

Torrington Bearing

One-piece Torrington roller thrust bearing is the ultimate method of preventing block wear.

Hex-A-Just® Bushing

Cloyes Hex-A-Just® Bushing is made from high quality steel. Replacement Part for some of the increasingly popular Hex-A-Just® sets and gear drives.
